

Profile X 8 80x40 light, natural

Product number PI-6172 SZ

Weight 3.48kg

Product description

The profiles of the Z8 series are weight-optimised profiles in cross-sections of 40x40, 40x80 and 80x80. The profile grooves are freely accessible or hidden under a flush smooth outer surface. If necessary, the cover can be easily opened and removed for the shoring of connecting elements or for the attachment of accessories. The sharp-edged geometry of the profile outer edge results in a level transition in the profile joint. The grooves and the core holes of the Z8 profiles are designed for M8 screws.

Cut to size max. 6000 mm
