Product description

Euro Container Closed 600 x 400 mm in Gray – Your Robust Solution for Storage and Transport

Our closed Euro container (600 x 400 mm) in classic gray is the ideal choice for efficient storage and secure transport of your goods. Made from high-quality polypropylene, this container stands out for its durability and versatility.

Product Features:

☐ **Standardized Dimensions:**

With a base size of 600 x 400 mm, this container complies with Euro-standard dimensions, ensuring seamless integration with pallets and shelving systems.

☐ **Closed Design:**

Fully sealed sidewalls and bottom protect the contents from external influences such as dust and moisture, while allowing easy cleaning.

☐ **High Load Capacity:**

Thanks to its sturdy construction, the container is ideal for transporting and storing heavy goods, ensuring safe stacking.

☐ **Ergonomic Handling:**

Equipped with ergonomic handles on the short sides, the container allows comfortable and secure transport.

☐ **Temperature Resistance:**

The Euro container is resistant to heat and cold, making it suitable for use in various environments.

Application Areas:

This Euro container is highly versatile and is used in a wide range of industries:

- **Industry & Manufacturing:** Ideal for storing components and tools.
- **Logistics & Shipping:** Perfect for the safe transport of goods.
- **Retail:** Suitable for product display and storage in sales areas and warehouses.
- **Food Industry:** Food-grade material allows direct contact with unpackaged food.

Why Choose Our Euro Container?

We offer an excellent price-performance ratio without compromising on quality. Our Euro containers are available from stock and can be ordered starting from just one unit.

Invest in our closed Euro container (600 x 400 mm) in gray and optimize your storage and transport processes efficiently and sustainably.
