Sturdy base frame with sheet steel cladding Powder-coated in light grey RAL 7035

- 4 spindle lifting columns 45x45
- 1x control unit 1x power cable 3m
- 1x cable remote control with memory function
- 2x integrated cable duct 40x40 K

For optimal positioning of materials and tools during assembly, the work table is equipped with a matching table attachment with outrigger. The height and reach of the outrigger are infinitely adjustable. The outrigger is used to attach lights and runners. The electric height adjustment allows a flexible working posture adapted to the respective user. The memory function makes the height adjustment easy to operate. The work table is supplied pre-assembled in individual segments for complete assembly.

## Product properties

<b>Part type</b>	Electric work tables
<b>Table series</b>	Basic Line
<b>Table centrepiece</b>	with Table centrepiece
<b>Table design</b>	With table top
<b>Lifting speed</b>	9 mm/s
<b>Height adjustment</b>	electric
<b>Load capacity</b>	400 Kg
<b>Frame height</b>	720 mm - 1020 mm
<b>Stroke</b>	300 mm

A 3D perspective view of a mechanical assembly. It features a horizontal beam with a sliding carriage mechanism. The carriage is connected to a vertical support structure, which includes a base plate and a vertical post. The assembly is shown in a perspective view, highlighting the mechanical components and their arrangement.
