Weight 110kg

Product description

Maximum Safety and Flexibility for Your ESD-Sensitive Materials

Our **ESD system cart for Euro containers** provides the ideal solution for the safe transport and storage of ESD-sensitive components. With a height of 200 cm and tiltable shelves, this cart ensures efficient use of available space and allows easy access to stored materials. Its sturdy aluminum profile construction and electrically conductive wheels guarantee maximum safety and mobility.

Key Features:

- **Dimensions:** 60 x 40 x 200 cm
- **Material:** Electrically conductive aluminum
- **Load Capacity:** Up to 400 kg
- **Shelves:** Five tiltable and one fixed shelf
- **Wheels:** Lockable and electrically conductive

Advantages:

- **Effective protection against electrostatic discharge**
- **Flexible use with adjustable shelves**
- **Robust and durable for industrial applications**

Additional Benefits with Auer Packaging:

- **Electrically conductive material:** Optimal for the safe storage and transport of electronic components
- **Compatibility:** Suitable for all standard Euro container formats
- **Accessories:** Complementary products such as ESD transport trolleys and pallets are available
