

C Line ergo plus worktable | 40 mm birch multiplex | 900 mm | 1800 mm

Product number 1012910

Product description

Stable base frame made of system profiles. The design offers generous legroom. For optimum positioning of materials and tools during assembly, the worktable is equipped with a matching table attachment with outrigger. The height and reach of the outrigger are infinitely adjustable. The extension arm is used to attach lights and runners.

- 2 spindle lifting columns 330x60
- 1x control unit 1x power cable 3m
- 1x Cable remote control with memory function
- 3x Integrated cable duct 40x40 K.
- For optimal positioning of materials and tools during assembly, the worktable is equipped with a matching table attachment with extension arm. The height and reach of the extension arm are infinitely adjustable. The extension arm is used to attach lights and runners. The electric height adjustment allows a flexible working posture adapted to the respective user. The memory function makes the height adjustment easy to operate. The work table is delivered pre-assembled in individual segments for complete assembly.
